Soft Skills
2 classes, 4 hours

HTML+CSS

16 classes, 32 hours
8 assignments on Tech Skills

JavaScript

22 classes, 44 hours
11 assignments on Tech Skills

React

16 classes, 32 hours
8 assignments on Tech Skills

Node.js

12 classes, 24 hours
6 assignments on Tech Skills

Career Skills

1 class, 2 hours
2 assignments on Career Skills
3 team projects

HTML+CSS units

Unit 1. HTML Basics.Tags and Attributes. Semantics
Unit 2. CSS Basics Selectors Color. Text Decoration and Fonts Unit 3. Block Model. Flexbox
Unit 4. Background and Decorative Elements
Unit 5. Positioning of Elements. Transformations. Transitions and Animations

Unit 6. Forms
Unit 7. Media Rules. Responsive Layout. Responsive Graphics
Unit 8. Adaptive layout

JavaScript units

Unit 1. Variables and types. Branches. Cycles
Unit 2. Arrays. Functions
Unit 3. Objects. Rest and spread operations
Unit 4. Iterating array methods
Unit 5. The this keyword. Prototypes and classes
Unit 6. DOM and Events
Unit 7. Patterns and Event Optimization
Unit 8. Project infrastructure. Web storage
Unit 9. Asynchrony and Date. Promises
Unit 10. Interaction with the backend
Unit 11. CRUD. Asynchronous Functions

React units

Unit 1. Introducing React. Styling components
Unit 2. Events and State. Forms
Unit 3. Life Cycle. Working with API
Unit 4. React Hooks
Unit 5. Routing
Unit 6. Redux and React. Redux Library. Hooks. Redux Toolkit
Unit 7. Asynchronous Redux. Splitting Code
Unit 8. Registration and User Login. Private and Public Routes

Node.js units

Unit 1. Node.js Basics. Creating a Console Application
Unit 2. Express Basics. CRUD in Express
Unit 3. MongoDB and Mongoose. Mongoose Schemes and Methods. Deploy on Heroku
Unit 4. Authentication
Unit 5. Working with Images.Tests. Unit Testing
Unit 6. Email Docker. WebSockets

LeadQuizzes

Letter of Recommendation *For Maria*

April27,2026

To Whom It May Concern,

I am writing to recommend Maria, who served as our Website Builder at LeadQuizzes and ClearCRM. During her time with us, Maria was responsible for the full spectrum of our web presence — from development and design to SEO, content optimization, and publishing. She consistently demonstrated strong technical ability, initiative, and a commitment to delivering high-quality work.

Maria's contributions spanned a wide range of critical areas. She led our WordPress development efforts, building and customizing templates from scratch, writing advanced CSS and JavaScript, and resolving complex technical conflicts across the site. She took ownership of PageSpeed optimization, materially improving load times and user experience. Her expertise in customizing Advanced Custom Fields (ACF) for the Gutenberg editor allowed us to build flexible, maintainable content structures that our team could use with confidence.

Beyond development, Maria played a key role in our SEO content optimization strategy, ensuring that our published content was both technically sound and search-engine friendly. She managed the integration of various third-party tools and services into our platform, handling the end-to-end implementation with minimal oversight. She also contributed to our AI integration services, helping us adopt and embed emerging capabilities into our workflows.

What stood out most about Maria was her ability to operate independently across disciplines — she was equally comfortable debugging a JavaScript issue, fine-tuning on-page SEO, or configuring a new tool integration. She approached every task with professionalism and attention to detail, and her work had a direct, positive impact on the performance and quality of our web properties.

I recommend Maria without reservation. She would be a strong asset to any team looking for a versatile, technically skilled web professional who can own projects from start to finish. Please do not hesitate to contact me if you require any further information.

Sincerely,

Adil Co-founder for LeadQuizzes / ClearCRM
